

Rise Above Plastics

W I N T E R W O R K S H O P S

Surfrider Pacific Rim's Rise Above Plastics Program aims to reduce the impacts of plastics in the marine environment by raising awareness about the dangers of plastic pollution and by advocating for a reduction of single-use plastics. We are thrilled to offer workshops for individuals and businesses that will help folks transition off of plastics, and contribute to the creation of an Ocean Friendly Corridor between Tofino and Ucluelet! All workshops include great resources, snacks, and ways to get involved!

From Rope Debris to Decor
